----------------- **DATABASE OVERVIEW** -----------------

Database Name : moleculedb
Access URL   : http://thermovm.mv.uni-kl.de/phpmyadmin/

----------------- **TABLE DETAIL** -----------------

TABLE NAME	DETAIL
pm_master	molecule master data
pm_detail	molecule detail data
pm_flexible	flexible molecule data
pm_bib	references
role_master	list of roles (NOT USED)
usr_master	user master data (NOT USED)
usr_access	user access data + master data

NOTE : tables with 'NOT USED' tag were created initially for taste purpose. No use of these table in current working database

-------------- **TABLE RELATIONSHIP** -----------------

MASTER TABLE	PRIMARY COLUMN (to refer data)	DETAIL TABLES
pm_master	master_id	pm_detail, pm_flexible
pm_bib	bib_key	
usr_master	usr_id	

-------------- **ADMIN USEFUL** -----------------

Database data should not be touched manually. Admin needs to update only one table manually, which is 'usr_master' to add user, remove user, change password

----------------- THANK YOU
